SHAIKH MOHAMMED AYAN

Mangaluru, Karnataka, India
+91 8884704021 — mohammedayanclass77@gmail.com
linkedin.com/in/shaikh-mohammed-ayan-311507292 — github.com/ayan-2105

PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning engineering student with hands-on experience in Python, machine learning, data preprocessing, and AI-based application development. Built practical projects involving image-based classification, NLP, automation, and web-based systems. Strong interest in AI/ML engineering, software development, and practical problem solving.

EDUCATION

Yenepoya Institute of Technology, Moodabidri — Karnataka, India
B.E. in Artificial Intelligence and Machine Learning — **CGPA: 7.16**
2023 – 2027

Pre-University Course (Class XII), Karnataka State Board — **69%**

SSLC (Class X), Karnataka State Board — **72%**

TECHNICAL SKILLS

Programming: Python, SQL
AI/ML: Machine Learning, Classification, Regression, NLP Basics
Libraries: NumPy, Pandas, Matplotlib, Scikit-learn
Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code
Other: Data Preprocessing, Model Evaluation, Basic API Integration

PROJECTS

Audexify – AI-Powered Web Accessibility Auditor

- Developed an AI-based web accessibility auditing application to identify common accessibility issues in websites.
- Worked with webpage content and AI-assisted analysis to generate understandable accessibility insights.
- Designed a simple interface for submitting website URLs and viewing detected issues.

AgriSakhi – AI-Powered Plant Disease Detection

- Developed an AI-based application for identifying plant diseases from crop images.
- Worked on image preprocessing and an ML-based workflow for disease classification.
- Designed the solution to provide simple digital guidance based on detected diseases.

FixFinder AI – Local Service Discovery Platform

- Developed an AI-powered platform for discovering and matching users with local service professionals.
- Designed structured inputs and filtering logic to match service requirements with relevant providers.
- Worked with API integration and automation workflows for local service discovery.

Citizen AI – AI-Powered Citizen Assistance Platform

- Developed an AI-powered platform to simplify access to public-service information.
- Designed an interaction workflow to understand citizen queries and provide relevant assistance.

Hackathon Management System

- Developed a system for managing hackathon participants, projects, and event workflows.
- Contributed to application design and implementation as part of a collaborative technical team.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- Microsoft Certified: Azure Fundamentals
- MongoDB Certification
- Rapid Development for AI (AI Services) – IBM

ACHIEVEMENTS & ACTIVITIES

- Participated in TechFusion 2.0 at Dayananda Sagar College, Bangalore, contributing to a technical project as part of a team.
- Participated in technical project development and collaborative hackathon activities.
- Developed and presented multiple practical projects focused on AI, machine learning, NLP, automation, and application development.
